------	--	--

AFCARS

8507	AFCARS-updates hispanic=null	Modified the AFCARS exception page so users making corrections on this page will not inadvertently wipe out the Hispanic value if it was already present on Person management.
------	------------------------------	--

AFCARS

8508	new edit: no default worker assignment the day adoption case created	A new edit was introduced to prevent assigning a new adoptive home case to a default worker on the same day the adoptive home case is created. Users will receive an error message "Overnight AFCARS processing must occur before creating this assignment." The reason is that the adoption batch does not run until the evening after the adoptive case is created.
------	--	---

Approvals

6176	Approval Recall/Return	The Recall and Reroute options are enabled after a user sends a piece of work for approval to a supervisor. Recall and Reroute are disabled once the piece of work has been recalled back to the worker.
------	------------------------	--

Assessment

------	----------------------------------	--

Assessment

8667	Modified IA can be created on closed cases.	An edit has been added to prevent creation of a Modified IA template from a screened-in Services Intake on closed cases.
------	---	--

Assessment

8676	Assessment page 50,000 narrative fields.	As the result of this enhancement, the system code was updated to process narrative data fields correctly.
------	--	--

Automated Messaging

6346	don't send messages to self	The system will no longer send an automated message to the worker who performed the action. For example, when a supervisor closes his or her own assignment, the system no longer generates an e-mail to that supervisor stating that their assignment is closed. Automated messages will still be sent to other appropriate users.
------	-----------------------------	---

Automated Messaging

6447	Enhancement for automated messages	An automated email message will be sent to the primary worker assigned to the case of a child already in the provider's home when a new child is placed in the home.
------	------------------------------------	--

eWiSACWIS Release 2.1 Notes

Automated Messaging

The message is used by all counties.

Automated Messaging

Close Case & Adoption Decree

for the reason of merge if prior or pending closures exist.

Collect/Determine Eligibility

7539

Eligibility determination State sign-off

Modified the online workflow for eligibility determinations and redeterminations. Eligibility workers will now find extra Options which trigger different functions. Ultimately, recommendations are made to the State for the eligibility status, and designated state workers will provide final approval to complete the eligibility determination.

Collect/Determine Eligibility

7673

IV-E Claiming for disabled adoptive children

Modified the logic that evaluates whether a child's federal eligibility status should be ended when a child turns 18 and is in an adoptive placement. If the child has a documented disability in the system (Person Management pages) their Adoption eligibility Federal status will remain open past their 18th birthday. When they turn 21, it will be automatically ended and changed to State status.

Collect/Determine Eligibility

8186

Eligibility Redet

Question 4 on the eligibility redetermination page will no longer clear the user-entered date and display an error.

Collect/Determine Eligibility

8221

------	----------------------------------	---

Home Provider

896	Add edits to ensure correct AFCARS data entry	Added validation messages to the Home Provider page to ensure consistency between the Marital status field and the number of Parents identified on the Members tab. When there is no Parent 2 identified on the Provider, the marital status must be Single Male, Single Female or Unable to Determine. When there is a Parent 2 identified, the Marital Status must be Married Couple, Unmarried Couple, Legally Separated, or Unable to Determine.
-----	---	--

eWiSACWIS Release 2.1 Notes

Home Provider

7908	Freezing "Duplicate" provider records	Provider records will be frozen when they are given the type of "Duplicate" and the status of "Inactive". Changing the provider to Duplicate/Inactive will prevent additional placements from being made with the provider. Fiscal staff will still be able to document the necessary payment data even after the record is frozen.
------	---------------------------------------	---

Issue/Reconcile Checks

7505	Update batch/online for EFT processing	Updated and enhanced eWiSACWIS support for EFT payment transactions to providers. Currently, only BMCW will use this functionality.
------	--	---

Issue/Reconcile Checks

8139	Report file not being produced	Modified the parameters for FM0202 Pre-Audit Payee listing report so that Voucher number and Voucher date can be blank. County is still required. This will ensure that every county will receive a pre-audit report. If a county has no payment /check transactions to process for that financial cycle, a report will still be received but will display "No In Process checks."
------	--------------------------------	--

Legal Consult

7484	Add logic to TPR page- require parental TPR info.	Modified the Legal Status page to retrieve specific parental information automatically for TPR related legal actions. Workers also have the option of searching for the parent(s) to which the TPR legal status applies.
